

# **CISL HELMET AND GOGGLE ORDER FORM**

ProTek Ski Racing is offering to All CISL high school athletes at 30% discount on Uvex FIS approved helmets that are now required by the league. This is the same helmet used in USSA, and FIS ski races. It is a safer helmet than a standard helmet with a higher impact rating. The CISL feels that if this helmet is required for higher level racing and provides superior protection to the athletes then it makes sense to require this helmet for CISL. FIS helmets are expensive and ProTek would like to help with by offering a 30% discount to all CISL racers through this form. All we ask is the athletes put together a team order which can be paid with individual checks or one check from the team. A ProTek representative will come to a team meeting at your school to measure and fit your athletes to the proper size. We will also offer goggles and lenses as supplies last at a discount. There are only so many helmets currently in the US and orders will be first come first served. You will not find a better discount on FIS helmets anywhere.

Please fill out the form with the Team name and make copies for your athletes. We will arrange a fit night and it would be helpful if they were prepared to order on the spot with a check and we can collect all the forms and payments at the fitting. We will have the helmets in about 1-2 weeks after your orders are taken and will deliver them to your school or coach, with names on each helmet box to avoid charging extra for shipping. Prices listed will include sales tax. Clear Lenses are \$20.00 each
